Babya Logic Pro is a powerful suite of pro-quality audio production software enabling you to edit your music just the way you like it. It includes the super-powerful step sequencer, the amazing Drum Machine, the sonic sfx editor, the famous ARP processor and much more. All of this combines to create an amazing musical instrument that you can use to create music that sounds like the music you listened to at home when you were young. Key features: - A step sequencer that has been custom-designed to work with songs - Dynamic ARP automation with FX, filter settings and a free arp mode. The arp mode is a special arp mode that allows you to play a new arp by just typing letters from the alphabet. It uses the letters A-B-C-D-E-F-G-H-I-J-K-L-M-N-O-P-Q-R-S-T-U-V-W-X-Y-Z - Sonic synth with over 300 synth presets - A powerful multi-track audio recorder - A 48-voice digital reverb with reverb, delay, chorus, flange, phaser, tape and multi-tap modes - A custom designed mixer with a drum machine, channel strip, master fader, effect processing panel and a control panel that was specifically designed for the iPad - 17 key studio guitar effects that includes 11 guitar amp simulators and 6 guitar distortion effects - All piano songs have been recorded with state of the art DAW software - 128 factory presets for all major instruments - 50 musical phrases from the piano, strings, brass, guitar and orchestral section - Over 150 video, audio and graphic samples from the most famous musical acts A 100% Remote and Offline Operation - Simply press the record button, change the track, mute the record, and all you have to do is hit the play button. - No need to look for the application, no need to run it on the computer. Just download the application on your iPad and it will work without a connection. It has been designed to make it even easier for you to record music. Songwriting - The track-by-track arpeggiator feature enables you to produce arpeggios. The arpeggiator creates arpeggios by automatically playing the notes that you enter. - Use the arpeggiator to create rhythmic patterns, bass
