KeyMacro is a free download manager that allows you to handle download links with one click. It can be set to automatically download the files whenever you open them, from the websites you are currently browsing. KeyMacro is useful for individuals who use various online services on a daily basis. For example, you may be a heavy online shopper and you want to bookmark the links to your favorite online retailers. You may go through numerous pages and pop out multiple tabs while browsing through a particular page and want to quickly save the visited links in a single file. What makes KeyMacro stand out from other products is its compatibility with the most popular web browsers such as Chrome, Firefox, Opera, Internet Explorer and Safari. You can easily download the application for the browser of your choice. When you start a download, the program will automatically load the link URL and create a temporary bookmark. Afterwards, you will be able to access it in a convenient place, such as your browser's toolbar, or with the help of a keyboard shortcut. The software is completely free to use and you will not be asked for any credit card details, no matter which version you use. Customizable KeyMacro is a free download manager and thus comes with a built-in set of features. However, you can easily customize it to suit your needs. You can change the number of tabs that will be simultaneously opened when you start a download, select the download location, change the browser's appearance, and change the color and size of the icon that represents the download link. Another option worth mentioning is KeyMacro's built-in help system. You can conveniently navigate the program's options by typing certain keywords. You can, for example, type 'bookmark', 'shortcuts', 'user info', 'browsers', or 'icons' to bring up the relevant area. Quick and easy to use KeyMacro is an easy-to-use tool that will require no special skills to operate. Its intuitive and straightforward interface is not very hard to figure out and the program's settings allow you to quickly change your preferences and customize your download behavior. The program will automatically download the files whenever you open them. It will even detect the latest updates in your browser and load them for you. The window for saving the download link is located at the top right corner of the browser window and it can be 2edc1e01e8
